These early books of how Nazism got started..immediately after WWI,
are very important. This tells how 200 families purposely sold out the
innocent French peasant, worker, shopkeepers, soldiers, and lovers of
Democracy. It was determined to protect their money investments
against possible Communism at any cost.

When it appeared that USSR was too strong for Hitler's troops,
these same people and their younger counter-parts continued the war
that is taking place today. The Cold War, Alger Hiss, the Rosenbergs, Nixon,
Onassis, Howard Hughes, the murders of JFK, MLK, RFK, Malcolm X, Whitney Young,
Vietnam, Korean war, and Nazification of Brazil, Chile, Greece, Paraguay,
South America, Latin America, and now a war in Africa can ONLY BE UNDERSTOOD
by studying these books from 1919-1946. The framework for today was
molded during 1919. The PEOPLE never had a chance.
