CIA TRIED TO HAVE OSWALD EXHUMED
UPI story, July 28, 1978
Washington, D.C.

1. CIA
2. MEDIA
3. A. SPECTER

This is a planted story.
Allegedly documented by W. David Slawson and Arlen Specter.
Both men CIA attorneys.
Both men suppressed vital evidence with Warren Commission.
The CIA did not want Oswald exhumed. They ordered the body cremated.

If they want him exhumed, call their shots. Ask Congress to dig him up today. HE WILL NOT BE IN THE COFFIN.

Chief Justice Earl Warren, "this man is buried in a cemetery, and it takes officers around the clock to watch him, watch and see that THEY don't come in and exhume him and do something that would FURTHER INJURE THIS COUNTRY".

"It has been suggested (by whom? who suggested this to the Chief Justice?) that to save expense, they exhume him and then cremate him."

"The question might arise before this thing (what is this thing he is talking about?) as to something on that body now. I don't know what it is." (they didn't tell him? They only suggested it be cremated?) It might be the course of the bullet. IT MIGHT BE SOMETHING ELSE"

Page 9. "Look out for planted evidence, accessories after the fact by CIA " while investigation working. There are professional forgers in the White House. The CIA plants documents to distort our history. Facts are in the body, buried in Texas, and not on pieces of paper delivered to UNITED PRESS INTERNATIONAL, a CIA conduit for releasing disinformation.

Write members of the Committee. "DIG UP OSWALD".
